ALICE IS AN EXCELLENT COMMANDER BUT, SHE STILL COUNTS TO 100!
There, Alice, close your eyes~
SHI MA DA STYLE SEN SHA DO
You have to go down to your shoulders then count to 100 before it's okay to leave.
...oneee~ ...twooo~

What is it Alice? Do you want me to count in German?
That's not it....

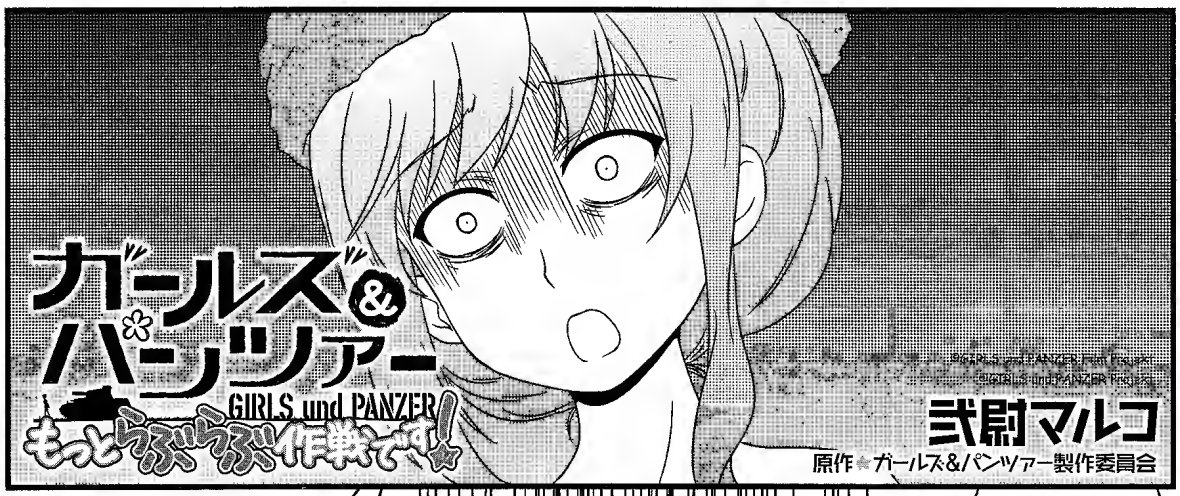
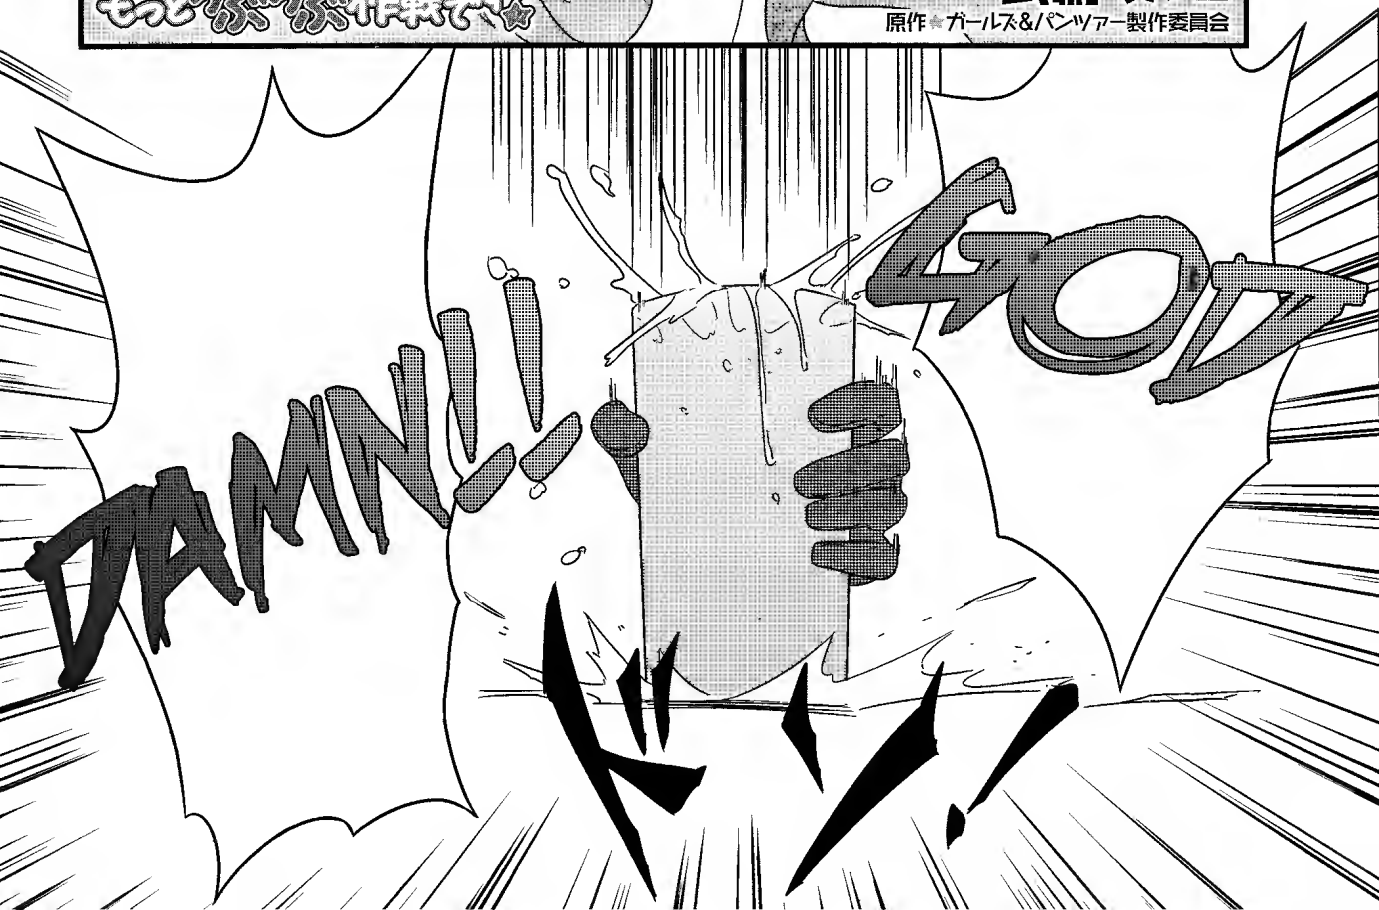
第35話 Ah, The mothers' side? Desu!



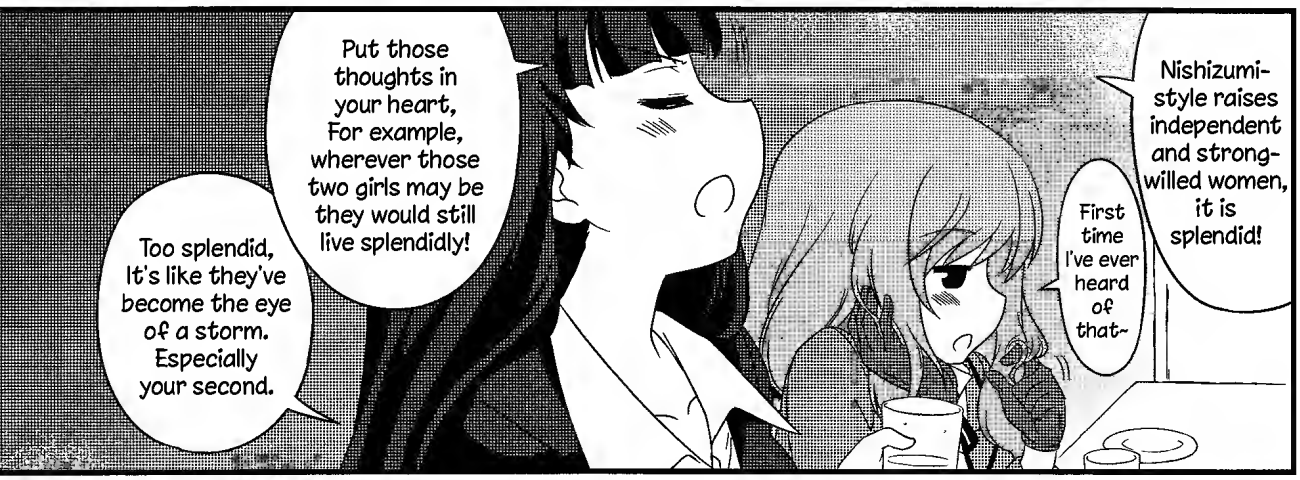


She's in her rebellious age!
Even my cute Alice is actually going through her rebellious age!
Hey are you listening? Head of Nishizumi-style-san, are you listening?
hahn~
I'm listening, Head of Shimada-style-san
It's not like that! This is a matter of great importance!!
But it's just that!?
Really... You rarely call me to come out so I thought it might have actually been something!

In the first place, it's your second daughter's fault- she's in the peak of her rebellious age right now!
Do you still not want me to talk?
...So, what about Miho?
Nishizumi Miho no longer goes into the bath with her mother
She wrote that it was embarrassing.
Th-that's - Well! She lives in a school ship...
Even in her home!
Rumi and Megumi said you're supposed to go into baths alone too.
Azumi said "se-c-ret ♡" though.
Forget about that last one.
Or rather, those kids are in college already...
I am too, mother.

See!!
Well, take responsibility, Shiporin!!
I don't care, Chiyo-kichi!!
That girl didn't even say anything weird!

MY CUTE ALICE-CHAN~!
Up till how old did your kids go into the bath with you?
Eh...? Thirteen ye-...
That kind of thing doesn't matter does it!?

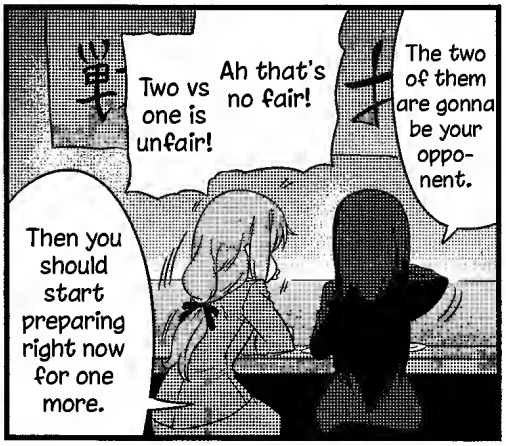


Nishizumi-style raises independent and strong-willed women, it is splendid!
First time I've ever heard of that~
Put those thoughts in your heart, For example, wherever those two girls may be they would still live splendidly!
Too splendid, It's like they've become the eye of a storm. Especially your second.

Whenever you're ready.

Oh well.
I won't lose the next time though.

For me, Just Alice is fine!
Just Alice...



The two of them are gonna be your oppo-nent.
Ah that's no fair!
Two vs one is unfair!
Then you should start preparing right now for one more.

Oh...
She's skipped so many grades, you should just let her be. What is it now...

...Before I know it, Alice had grown so big already huh...

06

Ah

For mail, uhhh, what was it again...?
Errm, this is a mail, prob-ably...

...Something that had grown so big before you even know it huh...
